Establishes the Missouri Empowerment Scholarship Accounts Program

This act establishes the Missouri Empowerment Scholarship Accounts Program.

Beginning in tax year 2016, a taxpayer may make a qualifying contribution to an educational assistance organization and claim a tax credit, as described in

the act. The tax credit is for seventy-five percent of the amount of the contribution. The tax credit may be carried forward for four years and may be transferred, sold, or assigned. The annual cumulative amount of tax credits is limited at \$50 million, which will be adjusted for inflation. The director of the Department of Economic Development must establish a procedure to apportion the amount of tax credits amongst all educational assistance organizations. The Director may reapportion those tax credits to educational assistance organizations that have used all, or a certain percentage, of their tax credits.

An educational assistance organization must meet certain requirements, including notifying the Department of Economic Development of its intent to provide scholarship accounts; being a 501(c)(3) organization; providing a receipt to taxpayers for contributions; ensuring that funds are used as specified in the act; distributing scholarship payments four times per year in an amount not to exceed the state adequacy target; providing the Department of Economic Development, upon request, with criminal background checks on all employees and board members; and demonstrating financial accountability and viability, as described in the act.

Each educational assistance organization must publicly report to the Department, by June first annually, the name and address of the organization, the name and address of each student who opened a scholarship account, the total number and dollar amount of contributions during the previous calendar year, the total number and dollar amount of scholarship accounts opened during the previous calendar year, and the total number and dollar amount of scholarship accounts opened during the previous year to students eligible for free and reduced lunch.

The Department of Economic Development must provide standardized forms for program participants. It may conduct a financial review or audit of any educational assistance organization if it possesses evidence of fraud. In addition, the

Department may bar an educational assistance organization from participating if it has failed to comply with program requirements.

A student is eligible to receive funds in a Missouri Empowerment Scholarship Account if he or she meets any of the following criteria: is identified as having a disability, as described in the act; or is a ward of the state. To be eligible, a student must also have attended a public school under circumstances set forth in the act or is eligible to begin kindergarten.

The student's parent or guardian shall only use the money in the account for certain expenses related to the qualified student's education, as described in the act.

The parent of a qualified student must sign an agreement to enroll the qualified student in a qualified school to receive an education for the student in certain subjects; not enroll the student in a school operated by a district or in a charter school; release the district of residence from the obligation of educating the student; use the Missouri Empowerment Scholarship Account money for only specified purposes; and not use the funds for computer hardware, transportation, or consumable education supplies.

The scholarship accounts are renewable on an annual basis upon request of the parent of a qualified student. Qualified students shall remain eligible for renewal until the student completes high school. If a qualified student withdraws from the program by enrolling in a school other than a qualified school, or is disqualified from the program for violations specified in the act, the scholarship account shall be closed and any remaining funds shall be returned to the educational assistance organization for redistribution to other qualified students. When a student withdraws from the program, the responsibility for providing an education for that student transfers back to the student's district of residence.

The funds remaining in the scholarship account at the end of a school year shall remain in the account for the following school year. Any funds remaining in the account after graduation may be used for the purposes of higher education as described in the act. Any funds remaining in the account after graduation from an eligible postsecondary institution or after a period of four years following graduation, whichever occurs first, shall be returned to the educational assistance organization for redistribution to other qualified students.

The Department of Elementary and Secondary Education must conduct or contract for an annual audit of accounts to ensure compliance. A parent or guardian may be disqualified from program participation, if after a hearing before the Commissioner of Education, the parent or guardian is found to have committed an intentional program violation. The Department may refer cases of substantial misuse of moneys to the Attorney General.

A person commits a Class A misdemeanor if they are found to have knowingly used moneys for any purposes other than those set forth in the act.

Requires the secretary of state to establish a system for automatic voter registration

This act requires the Secretary of State's office to establish a process for automatic voter registration based on driver's licenses to provide recommendations to local election authorities regarding automatic registration of eligible voters. The act instructs the Department of Revenue's Motor Vehicle and Driver Licensing Division to provide the Secretary of State's office with information so that recommendations can be made. No later than two months after election authorities receive the recommendations from the Secretary of State's office of who should be included on the existing lists, the election authorities will send a paid postcard to all recommended individuals to provide the opportunity for individuals to state they do not want to be registered to vote. If the postcard is returned, the individual's name will be removed. If it is not returned, the individual's name will be added to the list.
