

STRATEGIES TO SUPPORT REAL LIVES

Charting the Life Course: *A Guide for Individuals, Families, and Professionals*

Throughout our lives, we face questions and search for answers that will help us on our journey to a full and meaningful life. This is true for everyone, especially when you or someone you care about experiences a disability or special healthcare need.

Charting the Life Course is a tool to assist you in creating a vision for the future. It is designed to help you think about the questions to ask as well as the choices and options to consider as you “plot a course” to a full and meaningful life. It is intended to be a starting point no matter where you are in your life journey.

We hope the life course approach helps you realize that even when your child is very young and as he or she ages and grows into adulthood, their experiences and environment can shape how they will live their life in the future.

Charting the Life Course: A Guide for Individuals, Families, and Professionals

Who Should Use the Guide

Charting the Life Course was developed BY families and self-advocates FOR families and self-advocates. The questions in the guide represent the diverse experiences of these individuals and families, and include things they thought about, asked, or wished they had thought about and/or asked in their own life experience with disability or special healthcare needs.

Individuals with Disabilities or Special Healthcare Needs & Their Families:

Charting the Life Course was developed to help individuals with disabilities or special healthcare needs and families at any age or stage of life think about what they need to know, identify how to find or develop supports, and discover what it takes to live the lives they want to live. Individuals and families can focus on their current situation and stage of life but may also find it helpful to look ahead to start thinking about what they can do or learn now that will help build an inclusive, productive life in the future.

Professionals:

The Life Course guide will help professionals who serve individuals with disabilities or special healthcare needs and families: 1) to build upon their own understanding of the needs of individuals and families, and 2) by serving as a tool to engage with families individually or in group settings. It is a guide for starting conversations about what individuals need in order to be successful and self-determined throughout their lives and to help them think about how their choices, decisions, and experiences now can help them in the future.

Community:

The Life Course guide can be used by anyone who wants to learn more about what individuals with disabilities or special healthcare needs and their families experience and think about as they strive to live full and meaningful lives now and in the future. By considering the questions in this guide, community members may find ways to be more inclusive and accepting of all children and adults in everyday community life.

Understanding Self-Determination

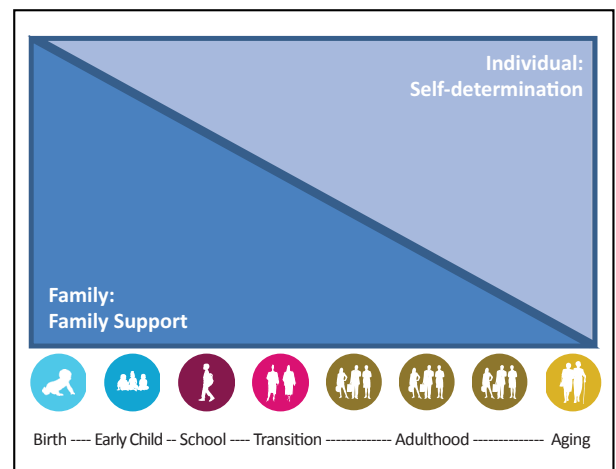

Throughout our lives, we face questions and search for answers that will assist us on the journey to a meaningful life. While this is true for everyone, it is especially relevant for individuals and families that experience disability who are striving to live full and meaningful lives in their communities.

The questions in Charting the Life Course are written to reflect a “first person” perspective across the lifespan to represent the viewpoint of the person with a disability and the on-going transformation to an adult who is self-determined, autonomous and independent.

- In infancy and early childhood stages, the person with a disability asks questions about what the family or others around them are doing to support them or helping them learn to do.
- As the child ages, beginning in youth, transitioning to adulthood, and as an adult, the questions are about what they themselves want or the things they should be focusing on.

Figure 1 illustrates how during earlier years the child (any child, whether they have a disability or not) is more dependent on the parent or family unit. During the transition and adult years, the family, while still involved and an important part of the person’s life, takes on different roles as the person assumes a larger role in making their own choices and decisions about how they live their life.

Figure 1. Family System Across the Life Course

Throughout this document you will see that some questions have a star beside them. These questions are designed to highlight ways to foster self-determination throughout the life course. Self-determination refers to actions that enable a person to be a causal agent in his or her life; to make or cause things to happen (National Training Initiative on Self-Determination, National Gateway to Self-Determination). Simply put, self-determination means making choices, setting goals, assuming responsibility, and driving how one’s own life is lived.

Historically, families and professionals alike don’t start thinking about teaching or instilling self-determination until a person with a disability reaches the age of transition from school to adulthood, or even later. In reality, self-determination is part of the life course journey from the very beginning. Self-determination can be viewed as a quality or characteristic of a person, similar to good manners, or other qualities that parents work to develop in their children. Like other desirable qualities, children can start learning to be self-determined from birth by having opportunities to make choices, learn about new places and things, build community connections, develop skills, and learn responsibility.

Individuals and families, as well as professionals who provide support, need tools that will help them along the way to achieving full and meaningful, self-determined lives. It is hoped that this document is a tool that will help guide you along your journey.

Navigating the Guide

The icons in Figure 2 represent the different life categories (going down the side on the following pages) that families and people with disabilities or special healthcare needs experience. Life categories are the different aspects and experiences of life that we all consider as we age and grow, such as daily life, community living, health and wellness. Everyone (whether you have a disability or not) has to figure out: what you are going to do during the day— go to school, volunteer, get a job; where you are going to live; how you are going to stay healthy and safe; and so on.

The icons on the right represent the different ages/stages of life from pre-natal/birth through aging/end of life (going across the top of the following pages). At the intersection of each life stage and life category is a set of questions for you to ask or think about in order to plot a course toward a meaningful life, now and in the future.

Wondering if Meeting Milestones

- Are you worried about how a diagnosis might affect my future?
- Do you have a vision or plan in mind for me when I get older that will support my growth and development now? ★
- Have you established a daily routine for me?
- How can technology assist you with helping me with daily activities?
- Are you playing with me and helping me to find ways to learn about and explore my environment? ★
- Do you recognize and respond to my signs, signals, babbling, gestures, and words? ★

Getting the Diagnosis: Entering the World

- What are the routines/strategies that will help you and me throughout the day?
- Are there ways you can organize things differently to accommodate me better?
- Are you exploring how technology can assist me with daily activities?
- Are you sending me to preschool? ★
- Who will provide any extra help I might need to attend preschool?
- Do you know where/how to find a child care provider who can accommodate my needs?
- Are you keeping a vision in mind for my future as I learn and grow? ★
- Do you view me as being able to do what other children do, even if I need extra help to do so? ★
- Do you parent me the same way as my siblings/other children? ★
- Do you know where to find tips on parenting?
- Are you giving me opportunities to make choices (between two or three options)? ★
- Are you helping me learn from my mistakes? ★
- If verbal communication is difficult for me, do I have other ways to make my wants, needs, ideas and thoughts known? ★
- Are you helping me start to see myself as separate from you? ★

Every Day Life During the School Years

- What does my school day look like?
- Am I in the least restrictive environment or neighborhood school? ★
- With whom do I spend the majority of the school day?
- How am I included at school with typical peers? ★
- Am I learning social skills as well as daily living and academic skills in my school experience? ★
- Is there technology to assist me with school activities?
- Are you sending me to the school's "before/after school" program and what supports do I need to participate?
- Do I have an after-school or evening routine?
- Do you ask me what I want to be when I grow up? ★
- Am I learning about lots of different jobs from my family, teachers and others? ★
- Do you make sure I have responsibilities at home (like other family members) such as daily chores? ★
- Am I expected to follow rules like any other child with consequences when I don't?
- Are you giving me the opportunity to make choices and decisions about everyday things (like what I wear, what I eat for a snack)? ★
- Are you helping me with ways to communicate to make my thoughts, ideas, and needs known to others? ★
- Do I know when it's okay or appropriate to talk, who it's okay to talk to, or what to say? ★

Daily Life

Realizing School is Almost Over

- Have you helped me create a transition plan that is truly individualized and prepares me for adult life after school ends? ★
- Does my transition plan include work or volunteer experience, and practicing how to look for a job, get a job and keep a job? ★
- What daily/independent living skills am I working on as part of my transition plan? ★
- Does my transition plan balance work experience, social skills and academics according to my needs, desires and abilities?
- Are you helping me understand that doing my best at school and being responsible will help me get a job that I like someday? ★
- Have you talked to me about post-secondary education? Taken me for college visits? ★
- What are we doing at home to prepare for adult life? Are you teaching me everyday living skills such as preparing meals, doing laundry, etc.? ★
- Do I have responsibilities at home, school, or in the community? ★
- Am I learning about all the different roles people have in life and how they are interrelated? ★
- Are you helping me learn how to apply for a job and start to gain experience in jobs that interest me? ★
- Are you helping me explore assistive technology that would help with learning employment and adult living skills?

Living Adult Life

- What will I do during the day now that I am an adult?
- What are the things I really like to do or want to do? ★
- Can I find a job or volunteer opportunity based on the things I like or want to do?
- Is there some type of job or volunteer activity that ties into my passion or interests?
- Will I have a full time job, part time job, volunteer, or go to some sort of program?
- Where can I learn or improve my employment skills? ★
- Can I turn an interest of mine into a way to earn income/start my own business? ★
- Who can help me to get a job or start my own business? ★
- Do I know how to get a job, keep a job or change jobs and build a long-term career? ★
- Do I know how to find ways to continue learning at my job, through volunteering, in the community, or with friends? ★
- What adaptations and supports are available to help me with my daily activities or routine?
- Do I know how, or is there someone to assist me with tasks such as meal planning, cooking, or grocery shopping? ★
- Do I know how to find or ask for help when I need it in my daily life? ★
- Is there assistive technology that can help me with my daily activities?

Preparing for End of Life

- What supports do I need to continue living as independently as possible in my own home and community as I age?
- Are there community resources for seniors I can utilize, such as Meals on Wheels or housekeeping assistance?
- If I'm still living at home with my parents, what will happen when my parents die – where will I live, and with whom?
- Can I afford to retire? ★
- What will I do to keep busy if I retire?
- How can technology assist me to live as independently as possible?

Charting the Life Course: A Guide for Individuals, Families, and Professionals

Questions to Always Think About Along Your Journey

The following are questions to consider no matter the particular life category or age. These are questions that you might ask or keep in mind whether you are just starting your journey, or are somewhere along the way. These questions are not intended to be all inclusive or complete, but will help you get started with some general questions to keep in mind as you progress along the life course.

- Are you asking yourself what other people my age are doing (for work, fun, etc.) and asking yourself how that looks for me?
- How are you helping me create or maintain community connections and social capital? ★
- How could technology, adaptations or accommodations assist me in living an inclusive life?
- Are you accessing and teaching me how to access typical community resources in addition to any paid supports I might receive?
- Have you thought about who will be there for me when you die?
- Are you considering my safety and protection without making me overly dependent or taking away my right to be self-determined? ★
- Do you help me to know what to do in an emergency by practicing safety drills, and do we have a disaster plan that takes my needs into account?
- Do you and other family members (i.e. – grandparents) understand that willing or giving property or money to me can have an adverse impact on my ability to access paid services, supports, or benefits, such as Medicaid and Social Security?
- Do you present yourself as an expert regarding me, and are you helping me to learn to be the expert on myself and my needs? ★
- Are you helping others understand that you and I have important expertise about my/our family's situation?
- Do you have someone to talk to about your feelings, emotions, and concerns, so that you don't feel so alone?
- Do you feel empowered to ask questions or disagree with professionals, and are you helping me know the questions to ask and how to assert my wishes/opinions to professionals? ★
- How do I know what I don't know? How do I find out?
- Are you helping me to create a vision for my own life? ★
- How are you encouraging self-determination at all ages, stages, and aspects of my life? ★
- Are you always keeping an eye to the future or the next stages of my life? Are you helping me learn to do the same? ★

Charting the Life Course was created and is offered for your use by the University of Missouri-Kansas City Institute for Human Development (UMKC-IHD), University Center for Excellence in Developmental Disabilities (UCEDD), an applied research and training center for human services. The UMKC-IHD and its faculty and staff work with a variety of university and community constituents to build the capacity of their programs and organizations, conducting work in applied research, interdisciplinary University training, community services and supports, and information dissemination.

The original framework was developed by the Missouri Family-to-Family (MO F2F) Resource Center team over a two-year period through a series of meetings with the Missouri Family to Family Stakeholders group. The MO F2F Stakeholders group includes representatives from over 35 different organizations, with 75% of the members identifying as a family leader. MO F2F staff and the stakeholders group represent the viewpoints of individuals with disabilities or special healthcare needs, parents, family members, professionals in the field, and agencies that serve children, families, and individuals.

This second edition is further enhanced by concepts from Susan B. Palmer's article, "Self-Determination: A Life-Span Perspective," (Palmer, S.B. (2010). Self-determination: A Life-Span Perspective. *Focus on Exceptional Children*, 42(6): 1-16.); and feedback from Self Advocates Becoming Empowered (SABE), the United States' self-advocacy organization.
