Establishes a MO HealthNet pilot project program and demonstration project to provide medical assistance to certain aged, blind, and disabled populations

This act establishes a pilot project program and demonstration project for MO HealthNet to provide medical assistance to certain populations of people with disabilities. Individuals included in this pilot program would be those who are in institutions for treatment of mental diseases who would qualify for SSI and those with disabilities who would not be eligible for SSI if they were not in the institution and whose income is below the maximum standard set by the MO HealthNet Division. It would include workers with disabilities who are eligible to enroll in

Medicare Part A and whose income does not exceed 200% of the federal poverty level. These individuals will be entitled to buy-in coverage of Medicare Part A premiums. Workers who have a physical or mental impairment that is expected to cause them to have a disability or become blind under Section 1614(a) of the Social Security Act if they do not receive MO HealthNet services will be able to purchase MO HealthNet coverage. This section will be conducted as a demonstration project consistent with Section 204 of the Ticket to Work and Work Incentives Improvement Act of 1999. Individuals with disabilities who are at least age sixty-five who are not covered by Medicare and whose income is not more than 135% of the non-farm official poverty level are included. Lastly, it includes individuals who are age sixty-five or older who have a disability who are end-stage renal disease patients on dialysis, cancer patients on chemotherapy, or organ transplant patients on anti-rejection drugs whose income is not more than 135% of the non-farm official poverty level and do not have resources beyond a level designated by the Department of Social Services.
