

# LEGISLATIVE UPDATE

Issue 7, February 21, 2014

Office of Administration  
**GOVERNOR'S COUNCIL ON DISABILITY**  
PO Box 1668  
Jefferson City, MO 65102  
800-877-8249 (Voice/TTY)  
573-526-4109 (Fax)  
<http://disability.mo.gov/gcd/>

Welcome to the seventh issue of the 2014 Legislative Update with the 97th General Assembly. The *Legislative Update* will present a new bill by providing a summary description. When significant changes occur on the bill it will be summarized again. Any changes in bill status will be highlighted in red and an asterisk will be placed before the bill number.

- The *Legislative Update* issue number and current bill summary will be inserted each week along with the bill number, title, sponsor, and current status (includes the committee assigned, chair and vice chair of the committee). Online copies of the legislative updates will have a red hyperlink to take you to the description of the bill and sponsors. Appropriation bill links will have a purple hyperlink.
- The *Legislative Update* will also include an index to assist you in locating the bill's category.
- Each issue of the *Legislative Update* is available on the Governor's Council on Disability's website at <http://disability.mo.gov/gcd/>
- Access to individual bill information is available on the Missouri General Assembly's website at <http://moga.mo.gov/>
- A glossary of terms can be found at <http://house.mo.gov/>
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- To learn more about the legislative process consider attending the *Legislative Education Project* training by registering online.
- Governor's Council on Disability (GCD) welcomes your comments and suggestions. Your comments can be submitted online to the GCD website at <http://disability.mo.gov/gcd/> or call us at (800) 877-8249.

The summaries are prepared by the Research Staff of the Missouri House of Representatives and are used by permission.

Bills are organized in the following categories:

- Assistive Technology
- Crime
- Education
- Employment
- Funding/Tax Relief
- Health Care and Personal Assistance
- Legal Rights and Responsibilities
- Mental Health
- Olmstead
- Safety/Prevention
- Services for people with Disabilities
- Other
- Appropriations

Note: When "incapacitated," "handicapped," appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

**SB 493 - Pearce**

Modifies provisions relating to school accreditation, student transfers, and creates a statewide achievement school district

This act modifies provisions relating to elementary and secondary education.

SCHOOL ACCREDITATION: This act requires the State Board of Education to adopt, through administrative rule, accreditation classifications for school districts of accredited with distinction, accredited, provisionally accredited, and

unaccredited. In addition, the State Board of Education must accredit individual school buildings within a school district when a district becomes provisionally accredited or unaccredited. This act establishes annual performance report scores that are consistent with the accreditation classification categories, as noted in the act. The State Board must develop criteria to allow districts with annual performance report scores above ninety to be classified as accredited with distinction. The State Board of Education must consider three years of accreditation data when making an accreditation classification.

When the State Board of Education classifies a district as provisionally accredited, it must intervene in the district with individualized improvement measures based on the district's and community's needs. At such time, it must also assign an accreditation classification to each of the provisionally accredited district's schools and may transfer any underperforming school to the statewide achievement district. If a provisionally accredited district does not show any growth within five years, the State Board of Education must classify it as unaccredited and then transfer the district's underperforming schools to the jurisdiction of the statewide achievement district.

If an unaccredited district does not demonstrate sustained improvement and regain provisional or full accreditation within five years of being classified as unaccredited, the State Board of Education must lapse the district and either attach its territory to another district or districts, or establish one or more school districts within its territory.

Currently, when the State Board of Education lapses an unaccredited district with a population in excess of five thousand students and seeks to attach its territory to another district or districts for school purposes, the school board of the receiving district must approve it. This act repeals this requirement. (Section 162.081)

**ACHIEVEMENT DISTRICT:** This act creates a statewide achievement school district effective January 1, 2015. The State Board of Education will transfer underperforming schools located in unaccredited school districts to the jurisdiction of the achievement district, which will administer and oversee them.

The achievement district will be governed by a three member board, appointed by the Governor with the advice and consent of the Senate. Members will serve a six year term. The governing board must select a president from the members by July 31, 2015. The governing board must also select a chief executive officer who must have recognized administrative ability and who will have all powers and duties of a superintendent of schools.

The duties and powers of the achievement district are described in the act. Neither the achievement district nor the State Board of Education will be considered a successor entity to the school district for purposes of employment contracts, unemployment compensation, or any other purpose.

When an underperforming school is transferred to the jurisdiction of the achievement district, the state aid and local effort of the district in which the underperforming school is located will be divided equitably between the district and the achievement district on a weighted average daily attendance basis. (Section 162.1110)

**STUDENT TRANSFERS:** This act modifies the student transfer provision in section 167.131. Currently, the school board of a district that does not maintain an accredited school is required to pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. This provision of law currently applies to both unaccredited districts and K-8 districts that do not offer high school grades. This act differentiates between a K-8 district that does not offer high school grades and

a district classified as unaccredited by the State Board of Education. (Section 167.131)

The school board of an unaccredited district must pay the tuition and transportation of resident students who attend a public school in another accredited district of the same or an adjoining county. Transfer students may not enroll in a provisionally accredited district. Before a student may transfer to another accredited district, the student's unaccredited district of residence must identify if there is space available in another accredited school. If capacity exists, the student will attend that school, provided the student meets any admissions requirements if the school is a magnet school or maintains a competitive admissions process.

To be eligible to transfer to another district, the parent or guardian of a student must provide proof that the student resided in the unaccredited district for at least twelve months prior to requesting the transfer. Any student who has already transferred must maintain residency in the unaccredited district. If the student withdraws from the accredited district, he or she will be ineligible to transfer to another district.

By August 1, 2014, each local school board must establish criteria for the admission of nonresident pupils from unaccredited districts and adopt and publish a policy for reasonable class sizes and reasonable student-teacher ratios. When adopting its policy, each school board must consider previous years of student enrollment, student-teacher ratios, and class sizes. The policy must also take into account the district's resident student population growth or decrease, such that the receiving district is not required to employ additional teachers or construct additional classrooms. In addition, resident pupils must not be displaced from the school building to which they are assigned. The receiving district will be responsible for assigning a student to a particular building.

If the unaccredited district becomes provisionally accredited or accredited, any student who has transferred to an accredited district may remain enrolled there through graduation or the district's highest grade level of enrollment offered. (Section 167.132)

TRANSPORTATION: Currently, the school board of an unaccredited district must designate accredited districts to which it will provide transportation for transfer students. This act adds a statutory reference to section 167.132. (Section 167.241)

This act contains an emergency clause.

 Changes various health care and MO HealthNet program provisions

This act includes many sections. One of the sections creates the "MO HealthNet Patient-centered Care Act of 2014." Beginning July 1, 2014 (pending appropriate amendments and waivers from the federal government) the MO HealthNet Division will create a pilot project that transfers those MO HealthNet living in the current pilot project areas to a health plan arrangement made up of health savings accounts from which recipients purchase a high deductible health plan and health services provided by M.D.s, D.O.s, physicians assistants and advanced practice registered nurses, dentists, and health care providers to which the individual is referred. The pilot project would include a software system that involves health management and population analytics. It specifies what the software system chosen will include. It specifies how various aspects of the pilot project will be implemented.

The bill creates the MO HealthNet Health Savings Account Trust Fund. It is designated to hold money associated with the MO HealthNet Patient-centered Care Act of 2014. It also specifies the types of reports the MO HealthNet Division must submit to the governor and general assembly.

The pilot project will be implemented state-wide July 1, 2017.

The bill also establishes an electronic benefit transfer card payment system, but the bill states it would not apply to those who have any type of disability.

The bill requires the state to establish and maintain an accountability system using health information technology so that it can be determined if and how MO HealthNet recipients covered by managed care organizations are improving in health outcomes and to allow the state to target health disparities. It specifies what the chosen system should have the ability to do.

Changes the laws regarding health care coverage

This act changes various provisions related to health care coverage. Those affecting individuals with disabilities are included in this summary. This act states the Department of Social Services shall notify any potential exchange-eligible participant who may be eligible for services due to spenddown that the participant may qualify for more cost-effective private insurance and federal premium tax credits available through the purchase of a health

insurance plan in a health care exchange and the benefits that would be potentially covered under the insurance. This act requires the MO Dept. of Social Services to implement an automated process to ensure individuals applying for benefit programs are eligible for the programs. The process will also periodically check those receiving benefits to ensure they are still eligible for their benefits.

This act states that individuals who are deemed to be "medically frail" will receive all MO HealthNet benefits they are eligible to receive. The definition of "medically frail" includes people with disabilities, serious emotional disturbances, disabling mental disorders, substance abuse disorders (in certain instances), and serious and complex medical conditions. This act states the Department of Social Services will work with the Department of Mental Health and the Department of Health and Senior Services to develop a screening process to determine whether an individual is "medically frail."

The act requires the Dept. to enroll all individuals who are "medically frail" and would benefit from being assigned to a health home to be assigned to one. The act states the Dept. will implement an incentive program to promote healthier personal habits for those who are "medically frail." The act instructs the MO HealthNet Division to develop and implement the "Health Care Homes Program" for individuals who are "medically frail."

The act states that the Department will contract with appropriate pediatric care networks and sites to aid in advancing care for medically complex children who receive MO HealthNet.

**HB 1960 - Schupp**

Establishes the requirements for certain authorized entities to stock a supply of epinephrine auto-injectors for emergency administration

This act allows entities who come in contact with allergens capable of causing anaphylaxis such as restaurants, camps, and sports arenas to acquire and stock a supply of epinephrine auto-injectors. It also allows trained employees, agents, or other

individuals from the entity to provide or administer an epinephrine auto-injector to anyone the trained individual believes is experiencing anaphylaxis. The act outlines that the training completed by the employees should include techniques for recognizing the symptoms of anaphylaxis and other severe allergic reactions, the standards and procedures for storing and administering the auto-injector, and emergency follow-up procedures and that it should be approved by the MO Dept. of Health and Senior Services. The act requires that the training be renewed at least every two years by each authorized individual.

Modifies provisions relating to speech-language pathologists

This act states that a speech-language pathology assistant may also work under the direction of a speech-language pathologist who is either employed by a federal agency or licensed by the Missouri Department of Elementary and Secondary Education for at least one year. The act specifies that an applicant for registration with the Board as a speech-language pathology assistant must complete bachelor's level course work and clinical requirements in the field of speech-language pathology as established by the Board through rules and regulations. The act repeals the requirement that a corporation engaged in the business of speech-language pathology or audiology who employs licensed persons must file a statement with the Board specifying that the corporation submits itself to the rules and

regulations of the Board. This act states that licensing requirements will not apply to individuals who hold a current certificate issued by the Department of Elementary and Secondary Education prior to January 1, 2014. The act repeals provisions of law which require an applicant for licensure as a speech-language pathologist or audiologist to present written evidence of completion of a clinical fellowship. This act states that following the administrative hearing proceedings with the Administrative Hearing Commission and a finding that grounds for disciplinary action have been met the Board may restrict or limit the person's ability to practice for an indefinite period of time. The act also states that no person who has served as a member of the Advisory Commission for Speech-Language Pathologists and Audiologist for two consecutive terms may be reappointed until a lapse of a least two years has occurred following the completion of the persons two consecutive terms

Relating to the licensing of speech-language pathologists and audiologists

Currently, a speech-language pathology assistant must work under the direction of a speech language pathologist licensed by the Board of Registration for the Healing Arts. This act states that a speech-language pathology assistant may also work under the direction of a speech-language pathologist who is either employed by a federal agency or licensed by the Missouri Department of Elementary and Secondary Education for at least one year.

An applicant for registration with the Board as a speech-language pathology assistant must complete bachelor's level course work and clinical requirements in the field of speech-language pathology as established by the Board through rules and regulations.

The act repeals the requirement that a corporation engaged in the business of speech-language pathology or audiology who employs licensed persons must file a statement with the Board specifying that the corporation submits itself to the rules and regulations of the Board.

Current licensing requirements do not apply to a person who holds a valid certificate as a speech-language pathologist issued by the Missouri Department of Elementary and Secondary Education. This act states that licensing requirements shall not apply to such persons who hold a current certificate issued by the Department prior to January 1, 2014.

The act repeals provisions of law which require an applicant for licensure as a speech-language pathologist or audiologist to present written evidence of completion of a clinical fellowship.

Currently, the Board may file a complaint with the Administrative Hearing Commission against any holder of a certificate or license for specified reasons. This act states that following the administrative hearing proceedings and a finding that grounds for disciplinary action have been met then the Board may restrict or limit the person's ability to practice for an indefinite period of time.

The act also states that no person who has served as a member of the Advisory Commission for Speech-Language Pathologists and Audiologist for two consecutive terms may be reappointed until a lapse of a least two years has occurred following the completion of the persons two consecutive terms
