Tuesday, Nov. 10 2020

**DDR B of St. Charles County
1025 Country Club Rd.
St. Charles, MO 63303**

WHY VACCINATE?

Vaccination is the most effective first step in building immunity against influenza, and vaccines have a long track record for safety and effectiveness. Annual vaccination decreases the risk for developing the flu, reduces the severity of symptoms in those who become infected and reduces the risk of illness for those unable to receive immunizations.

For information on vaccinations and other prevention activities, please visit sccmo.org/flu.

EVENT INSTRUCTIONS
